MOSES NDUKA JOSHUA

Community Manager | AI Content Evaluator | Web3 Content Creator

Lagos, Nigeria | ndukam459@gmail.com | x.com/ndukam14 | linkedin.com/in/joshua-moses-1540763b7 | @ndukam2026 | moses-nduka-joshua-portfolio.vercel.app

PROFESSIONAL SUMMARY

Community operator and content creator with 1+ years of hands-on experience managing 20K-member Discord communities, organizing and hosting 20+ live events end-to-end, and producing 150+ pieces of verified content across 5+ blockchain ecosystems. Currently serving as a paid Web3 ambassador with Fast (formerly Pi Squared), compensated in stablecoins. Hands-on experience with AI data labeling pipelines (Sapien) and daily prompt engineering via ChatGPT. Recognized by project founders for content quality. Operates fully independently in async remote environments.

VERIFIED IMPACT

1.9M+ Impressions **90.1K+** Engagements **7.1%** Engagement Rate **150+** Posts Published

50+ Graphics Designed **20+** Events Organized **20K+** Discord Members **$1K+** Token Rewards Earned

WORK EXPERIENCE

Web3 Ambassador (Paid — $120/month, Stablecoins)
Fast (formerly Pi Squared) • Remote, Independent **Feb 2026 – Present**

- Selected as official paid ambassador responsible for ecosystem content production, community engagement, and audience education
- Produced 20+ educational posts and threads simplifying complex blockchain infrastructure — **10 posts received direct engagement from the project founder**
- Communicates directly with the Fast core team to align content strategy with project announcements and goals
- Maintained consistent publishing schedule and community presence across X and Discord without supervision

Community Operator & Content Creator
TAC (OG Role, 1 of 100) • Irys (Senshi Role) • PrismaX • Myriad • Abstract • Remote **Mid 2025 – Present**

- Awarded OG Contributor role at TAC — one of only 100 selected globally — **with content and community responsibilities assigned directly by the team**
- Earned official Senshi role at Irys for consistent, high-quality contributions with active ongoing responsibilities
- Organized and hosted 20+ community events end-to-end — Trivia, Karaoke (Rumble), PFP Drawing Sessions, Content Clinics — managing brief, graphic design, announcements, and live hosting independently
- Designed 50+ branded event graphics and content visuals in Canva — officially deployed across community channels
- Published 150+ pieces of content generating 1.9M+ impressions and 90.1K+ engagements across 5 projects
- Generated $1,000+ in TAC token rewards at TGE — recognized among 100 top contributors globally
- Verified all content against whitepapers and official docs before publication — zero correction requests from any project team

Community Moderator
Sherpa • Monad Ecosystem • Remote **2024**

- Moderated a 20K+ member Discord server — enforcing community standards and maintaining a healthy environment
- Hosted live community events including Rumble sessions and interactive activities, driving engagement and retention
- Maintained community activity during low-engagement periods through planned initiatives and real-time participation

Data Labeler — AI Training
Sapien • Remote, Contract **2024**

- Labeled and annotated datasets for AI model training pipelines following structured evaluation guidelines
- Classified data samples and flagged ambiguous cases with detailed written reasoning for quality review
- Delivered consistent, accurate output across high-volume labeling tasks in a fully async environment

AI & EVALUATION SKILLS

Primary Domain: Content Evaluation & AI Training

Specializations: Prompt evaluation, output ranking, data annotation, content quality assessment, error detection

Languages: English (fluent)

- Data labeling and annotation — hands-on AI training pipeline experience (Sapien)
- Prompt engineering — daily ChatGPT use for content generation, output testing, and response comparison
- Content quality evaluation — clarity, accuracy, structure, and alignment with user intent
- Output ranking and comparison — selecting higher-quality responses against structured guidelines
- Error detection — identifying content weaknesses and delivering clear, actionable written feedback
- Performance analysis — reading engagement metrics to optimize content strategy over time

SKILLS & TOOLS

Community Management: Discord moderation, event planning & hosting, Telegram engagement, user onboarding, community growth

Content Creation: Thread writing, long-form posts, ecosystem breakdowns, educational content, prompt engineering

Graphic Design: Canva — event graphics, infographics, branded templates, community visuals (50+ pieces)

Video Editing: CapCut — short-form clips, highlights, key moments

Tools: ChatGPT, X (Twitter), Discord, Telegram, Notion, GitHub, Canva, CapCut, Google Docs, Google Sheets

Work Style: Fully async, independent delivery, remote-first, structured guideline execution
